

Session #3 - Exercises

Adrian C Lo

2/5/2020

INSTRUCTIONS

There are 3 segments with around 10 questions each that increase in difficulty. Fill in the answer within the code chunk. When you wish to test the code chunk, press the *green play button* on the right side of the code chunk to see your output.

The hints will guide you what functions are required. You can access further information with `?x` where x is the function name, e.g. `?print()`.

Also check this page, specifically sections 8.3 and 10.2 for additional help.
